### **DETAILED ACTION**

This action is responsive to the after final amendment and IDS filed October 6, 2003.

Art cited by the applicant has provided grounds for rejection, therefore finality of the last office action has been withdrawn, and a new rejection of the claims based on the contents of the IDS is provided below.

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Lanz (AT 401,868). Referring to claim 1, Lanz discloses a thumb splint comprising a thumb stabilizing component for securing the thumb of the user to the adjacent index finger permitting the thumb to move toward the index finger but limiting movement of the thumb away from the index finger to a predetermined angle, the thumb stabilizing component comprising a thumb receiving section (1), an index finger receiving section (2), a non-extendable, flexible connector extending between and secured to the thumb section and the index finger section for permitting the thumb and index finger to move towards one another but limiting the movement of the index finger away from the thumb beyond a predetermined value, and a positioning component for securing the thumb

stabilizing component comprising an elongated strap (5), and wherein the splint is incorporated into a glove. (See translation).

3. Referring to claim 5, Lanz discloses in figure 2, the strap having a sufficient length.

### ***Claim Rejections - 35 USC § 103***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lanz. Lanz discloses the claimed invention as discussed in the paragraphs above, but fails to teach the specific materials used. The choice of material is considered a matter of obvious design choice within the knowledge of the skilled artisan as one with ordinary skill in the art would select a material based on its suitability for the intended use.

### ***Response to Arguments***

6. Applicant's arguments with respect to claims 1, 5, and 6 have been considered but are moot in view of the new ground(s) of rejection based on prior art provided by applicant.

### ***Conclusion***

7. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 10/6/2003 prompted the new

ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
